Hi Cathy,

AR00140640

I responded to all the comments you provided in the attached and included a brief status of the activities on the Honolulu High-Capacity Transit Project as of January 29, 2009. I would like to follow up with a phone call to go through your comments.

Thanks,

Justine A. Belizaire-Gouveia

Good Morning Cathy,

Please take a look at the attached briefing paper and let me know if it answers all your questions or if you need any additional information. If the attached is acceptable to you I will remove the "DRAFT" and reissue to all addresses.

Thanks,

Subject: FW: Alignment

Hi Justine,

Could you please provide info on:

- 1) the scope of the selecting alignment- Airport alignment- (e.g. how many miles, stations, aerial structure, at grade...)
 - 2) the estimate cost of the selecting alignment?
 - 3) the schedule
 - 4) Differences in scope, cost, schedule and others (e.g. riderships, parcels acquisition,...) from the previous LPA (Salt lake) and the current selecting alignment (you may provide a table to list differences between the Salt lake LPA and the current selecting LPA.
- Note: I have a copy of the 8/12/08 presentation from the CITY (Honolulu Rail Transit Project- HI on the move") but would like to know if any changes from that copy. It would be benefit if we have a summary of what I have requested above.

5) Status: anything new/updated info from the monthly report dated 1/14/09?

6) PMP: has the city provided you any updated PMP or schedule or any documents (e.g. contracting strategy or delivery method?- What is the city working now (e.g do they plan to update any documents or continue working on further developing the scope, vehicles/technology selections and what are they...) Please respond this email to all addressees.

Thanks

Cathy

Subject: Alignment

For your information, the Honolulu City Council today passed a resolution selecting the Airport alignment as the new Locally Preferred Alternative.

Later this afternoon I will forward you a copy of the exact resolution.
